

BUSINESS AT OECD CANADA

YOUR GATEWAY TO SHAPE INTERNATIONAL POLICIES

The Organization for Economic Cooperation and Development (OECD) is the top international decision-making forum on business and economic issues. Business at OECD is the official voice of business to the OECD and provides a platform to shape policies that will affect your industry before they are implemented domestically. Participation also provides access to a global business network and a voice with decision-makers at the OECD and its member governments.

As the national lead for Business at OECD, the Canadian Chamber of Commerce nominates members to sit on Business at OECD policy group(s). These policy groups provide the forum for businesses to engage in OECD work. Members will also have the opportunity to participate in Canada-specific engagements organized by the Canadian Chamber and in our delegations to certain OECD activities.

What a Business at OECD Membership Gives Your Organization:

- **A platform to engage with decision-makers**
Participate in consultations with OECD governments and provide expert advice, helping to shape policy recommendations on a wide range of issues affecting your industry.
- **Leading insights**
Connect with a global business network and decision-makers from OECD member governments and be at the forefront of policy analysis and development on key issues before they are implemented domestically.
- **A chance to lead**
Nomination opportunities to Chair and Vice Chair positions on policy groups provide you with the opportunity to shape Business at OECD's policy priorities.

Business at OECD Membership Fee: \$7,500
